

M WALL PROTECT[®]

Statement

M-Wall Protect is an innovative, efficient and economic wall cladding and protection solution. M-Wall Protect is free of BPA (Bisphenol A). The wall cladding is a co-polyester. In compliance with the newest European fire rating regulation by EN13501-1 / B - s1, d0. M-Wall Protect is compliant to the HACCP regulation for the highest standards for food preparation and production. The protective wall cladding is 100% recyclable and Breeam compliant. M-Wall Protect is developed especially for evacuation areas and public buildings such as airports, hospitals, schools, museums, shopping malls and others.

The surface has a high chemical resistance and provides high hygienic standards.

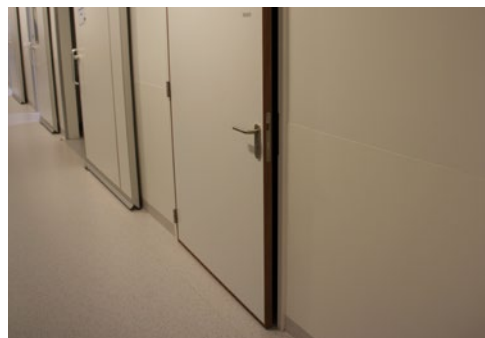

The fine embossing guarantees easy maintenance and a natural surface impression.

M-Wall Protect is easy to install and can be individual detailed.

The standard sheet material is 3.000 x 1.250 x 2 mm which allows optimal sizing and avoids non-necessary cutting losses.

Benefits of M-Wall Protect

- Antibacterial
- Excellent chemical resistance
- High scratch and impact resistance
- Highest fire rating, B- s1, d0
- FDA compliant (HACCP)
- 100% Recyclable
- Matt embossing
- Low gloss natural impression
- Easy to install
- Easy to combine with other M-Wall products

Applications

- HACCP Facilities
- Hospitals
- Laboratories
- Clean rooms
- Pharmaceutical industry
- Private clinics
- Retirement homes
- Offices
- Hotels
- Schools
- Distribution centers
- Shops
- Airports
- Museums
- Social housing

Specifications

Dimensions

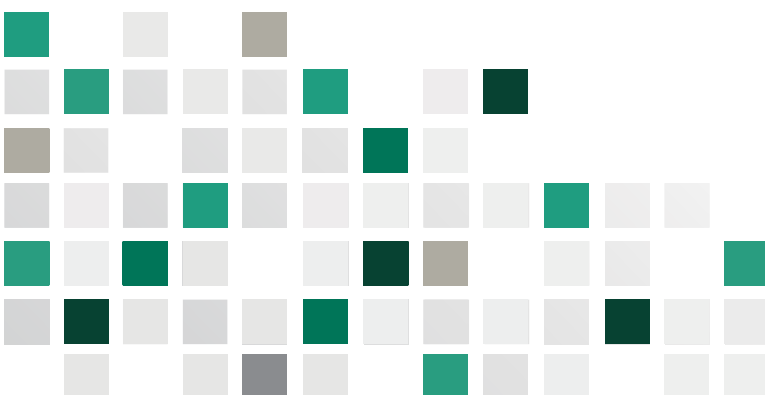

Thickness	2mm
Width x Length	3000 x 1250 mm
Surface	Microcell Embossed

Technical Data

Properties	Standard	Classification
Thickness	EN 428	2 mm
Dimensions	EN 482	3000 x 1250 x 2 mm
Density	ISO 1183	1,27 gr/m ³
Flammability	EN 13501	B-s1,d0
Tensile Strength At Break	ISO 527	53 MPa
Linear Thermal Expansion	ISO 11359-2	6,8 x 10 ⁵ mk
FDA	21.CFR.177.1315	Compliant
Chemical Resistance		Excellent
Recyclable		100%
